[May, 1864.

INDEX TO TOWNS, Etc. (showing every Railway Station)

Refreshment Stations. † Telegraph Stations. 22 The Initials (8) denote Market Days.

Note.—Towns in connection with Steam Boats are omitted here, as they appear in the Alphabetical List of Steamers with follows the Railway Information. Those Towns printed in Italies in the following Index, as Italy, &c., are not Railway Stations, but will be found on the page referred to in connection with the Station nearest thereto.

To prevent a repetition of references in the following Index, the route in connection with each Town is only mentioned once; the return journey will be found, in many cases, on the adjoining page.

Through Routes will be found under the heads of the principal Cities and Towns in the Kingdom; for example, see under Aberdeen. The word for a sabbreviation for that of "forward" and indicates—Proceed to destination.

OFFICIAL NAMES OF RAILWAYS,

NAME OF THE JUNCTION AT WHICH EACH BRANCH RUNS OUT

The Main Line is given first, the Branches follow in consecutive order, and are referred to by black letters at the several places at which they run out of the Main line.

Note. The places in the following List printed in italics, form no part of the Main Line with which they are in connection, as in the case of "Manchester" in connection with the North Staffordshire Line, the North Staffordshire Line beginning at Macclesfield, and ending at Burton and Derby to the East, and Colwich to the South.

KEY

TO THE GENERAL ARRANGEMENT AND PLAN OF THE GUIDE.

The information is given in the following consecutive order:—

- The first 32 pages, printed on tinted paper, are Advertisements.
- 2. The Map shows all the Railways open. The thick figures printed thereon, refer to the page on which the trains of the particular lines to which they are attached may be found. The back of the Map gives the Gab Fares and general Directions to Railway Travellers respecting luggage, &c. &c.
- 3. Index.— From page 1 to 14 inclusive, is given every Railway Station in the Kingdom.
- 4. Contents.—Pages 15 to 20 inclusive contain the Official Names of all the Companies, with their Branch Lines, and the name or point of junction of each branch with the Main Line.
- 5. Railway Time Tables.—The arrangement of these may be thus described:—

Abridged Tables, from page 22 to 27 inclusive.

London to the West.—This section of railways is given from page 28 to about 47.

London to the South-West, South, and South-East, from page 48 to 76.

London and Eastern Railways, in the counties of Norfolk. Suffolk, and Essex, from page 85 to 99.

S5 to 99.
London to the North (via East Coast Route), from page 78 to 84.

London to Liverpool and Manchester, and, via West Coast Route, to the North, from page 102 to 133.

Midland District Railways.—London to Derby and Bristol; and from Derby through Leeds and York, northwards, and the lake districts of Cumberland, from page 134 to 160

The Manchester, Sheffield, and Lincolnshire, the manufacturing districts of Lancashire and Yorkshire, from page 162 to 182. Railways in Scotland, from page 183 to 203.

Railways in Ireland, from page 204 to 214.
From page 220 to 247 is comprised a list
of Advertisements of all the leading Steam
Packet Companies in the Kingdom.

From page 246 to 270 an abridged Alphabetical List of Steamers from every Port in the Kingdom.

From page 271 to the End is a list of Hotel and other miscellaneous advertisements.

- 6. Fares.—In the occasional absence of these, an approximation may be obtained by calculating a slight increase upon 2d, per mile for first, 14d, second, and 1d, third class Passengers.
- 7. Thick Lines down the right hand si'e of the Station columns denote the course of the Main Line, thin lines, the deviations or branches. For example, the brains from London to Exeter direct, pages 28 and 29, pass only through those places en route, opposite to which the thick line appears.
- 8. Indentions.—These are also intended to show a distinction between the Main Line and its Branches, see page 68. Those stations which have an indention on the left hand, as Reading,

Hastings, Maidstone, &c., are Branches from the Main Line, showing that travellers in going from London to Dover, do not pass through any of those places having the indentions, except at the point of innerion with the Branch.

- Dark Lines.—A mark thus —, or thus Stop indicates the total stoppage of the train at that point; if any train be shown below in the same column, it is an independent one.
- 10 Bold Figures thus (6) are placed at junctions and termini, and refer to pages of the Guide by which the traveller is enabled to extend his journey from one Company's line to another.
- 11 Shunts.—These consist of a thin line in the middle of trains thus.—They are intended to show the continuous route of the traveller. See page 102; the train leaving London, at 550 a.m. runs only to Watford; but, by the train being shunted at this station into the next train, he is enabled to pursue his journey onward to Stafford and Liverpool.
- 13. Dotted Lines.—Thus ——page 102, and 6-15 a.m. The Main Line Train does not pass over that portion of the line opposite to which these dotted lines appear.
- 14. Branch Lines.—To proceed from a Station on a Branch Line, to any Station on the Main Line, lying in an opposite direction, the following is all that is required.

EXAMPLE.

FROM MAIDSTONE TO DOVER. Page 70.

Pages 68 and 69.

When a Branch is separated from the table of the Main Line. THE ARRIVAL AT THE JUNOTION WITH THE MAIN LINE must be ascertained, and then reference made to the departure from the junotion to the place required.

IMPORTANT NOTICE.—The Mail Boats and Mail Trains do not wait for Passengers or Baggage after the Mails are loaded. The Postmaster General requires that the 430 a.m. & 345 p.m. Mail Trains for London be started from Dover 15 minutes after the arrival of the Boat, when late; so that all luggage which is not in the Train at the expiry of that time must wait for the next Ordinary Train CALAIS. The Company have now an office in the Interior of the Railway Station at Calais, for the issue of Through Tickets to Passengers, and the Through Registration of Baggage. Parcels will also be forwarded from that office.
